I have been away from this subject for many years - I studied copyright law at Harvard and was Legal Advisor to the U.S. Copyright Office. This book sets forth the current state of this rather complex and ever-changing law in straightforward language, understandable by anyone who cares about the subject. It certainly is nicely bringing me up-to-date, for which I am grateful.

Forget casebooks, this book is enjoyable enough to read casually. The beginning of the book provides a great summary of copyright law in general, as well as an explanation of the other areas of Intellectual Property so you have your head in the right place before the idiosyncrasies of music

copyright law are discussed.

Since I'm working on my Entertainment Law Certification, I find this book to be very helpful. The thing that Rod Canion has taught me while my time w/ Compaq and my time at Hewlett Packard will make me a top EL in the Music Industry plus w/ Clive Davis blessings it will be nothing I can't do for the artists I represent. "Bound By Loyalty" Corey Miller

Useful tool - - bought it for our son who works for an entertainment attorney. Helpful resource.

I advise anyone interested in music to purchase this book. it puts the myths to rest , and after reading it I felt highly informed

Very detailed and informative. For every song writer this is a must! Don't get screwed! Buy it!

Great book.
