Customer Reviews

My husband is an artist and he loves reading books too so I think this would be the perfect gift for him. I was curious what would be inside this bookmark book before I bought it and now as I got it in my hands, I think I should share it's images with everybody who would like to have one so they can know if they like it or not.

I bought these for an art-appreciative co-worker who loves reading. They weren't much (I was aiming for the free shipping and this was a great filler) but I definitely feel I got my money's worth. 12 full-color heavy-weight paper bookmarks, and bound (as perforated tear-outs) in a book that can go on the bookshelf itself. Highly recommended for the bookworms you know.

I bought this to give as a gift and was very pleased when I received it. It is a lovely little book and all

the bookmarks have the name on of the artwork on the back and are coated and shiny. They are a nice size and I think a really good price. You could leave them in the book if you so choose or tear them out to use as bookmarks.

This was a fun find browsing .com. I purchased these for myself and another avid reading fan and we were both delighted to have something as colorful as these between our reading pages. I'll be purchasing more in the future. So many books..not enough bookmarks!

These bookmarks are just what I needed, they are beautiful and of good quality. My favorite one is the starry night but all of the bookmarks are equally beautiful, with Van Gogh you cant go wrong. I am planning on collecting different bookmarks from this publisher so I have a good variety for my books. Overall a great buy for only 1.50!

I have always admired Van Gogh's paintings and now I have the chance to have some of them on my bookmarks, and I can look at them everytime I read a book.They are a pleasure for the sight.

I ordered the bookmarks because they showed up on Super Saver shipping and I figured \$1.50 for a set of 12 was a good deal anyway. They are so lovely, I just want to keep the booklet as it is. Probably will laminate a couple of my favourite works so they last. As many other reviewers have noted, the paper is thick and the images clear.These will make great add-on gifts for book and art lovers, especially if you are creating a hamper with assorted items that may or may not include books or decorative journals. I will buy more of the Van Gogh ones for sure!

This is a tiny little book (note the product dimensions), which makes it a great stocking-stuffer. Very pretty bookmarks--the colors are very vibrant. Great deal if you're shopping for a book lover, art lover, or simply a useful filler item!
