tl;dr - This book helps you experience wine like no other book has done before. It is visually engaging, educationally satisfying, and incredibly enjoyable to flip through. It is for experienced wine connoisseurs and newbies alike. And it exceeds expectations in every way - it did for me at least!-----My initial, irrational fear:When I opened the box from

and picked up the book, I wanted so much, probably more than most, for this book to be unbelievably awesome. Well, before opening the book, I was suddenly convinced there would be far too much information for me to ever get through without being completely overwhelmed, or bored to tears...and the book isn't even particularly long! Remember, I said "irrational" fear. While it may be irrational, there are probably a lot of people that feel the same way, or have similar preconceived notions, about a book on wine. You might be nodding your head right now. So, I immediately resolved to flip through every page, purely out of respect for the amount of time and effort that was put into this book. To my surprise, I made it through the entire book in 15 minutes. Lies, you say. Let me clarify. I scanned every page quickly, focusing mostly on headings and illustrations. I stopped every so often to browse through the contents on a particular page. Well?? ...I was delighted, to say the least! After flipping through the book a few more times I realized there is something very difficult to do when it comes to education, especially when it involves a seemingly complex topic like wine.
