What an excellent book. My daughter uses this in her private saxophone lessons. The bonus is the CD that it comes with for the kids to play along. The only suggestion I would have to budding musicians is that they need to learn the song without the CD first, then have them play it along with the CD. Once you are comfortable with playing a song, you can then worry about the timing of the music on the CD. Seems my daughter is always half a second behind because she's not as confident with her playing abilities on some of the songs. This is her favorite book though!

This play-along pack was perfect for my 14 year old son. He has been playing the sax for a few years now and does performing at our church. It was easy for him to read and play. Very pleased and very proud of him with his performances!!!Will purchase more instrumental music packs in the future!

Very good play along book. However, the names of the tracks were incorrect and I had to edit it to

avoid confusion when trying to locate a track for a piece that I am playing.

love it
