Alvar Aalto: Second Nature

Synopsis

Described by the architectural critic Sigfried Giedion as the "Magus of the North," Alvar Aalto (1898–1976) is the best-known Finnish architect of his generation and a leading proponent of a more human modernism. His buildings such as the Paimio Sanatorium (1933), the legendary Villa Mairea (1939) and the church of the Three Crosses in Vuoksenniska (1958), embody a masterful interplay of organic volumes, forms and materials. From door handles and lighting fixtures to built-in furniture, Aalto frequently designed complete interiors down to the smallest detail. With his plywood chairs, the master builder additionally became one of the most significant designers of the twentieth century. His Savoy Vase represents the quintessential qualities of Finnish and organic design. This richly illustrated book is the first in many years to offer a comprehensive and current overview of Aalto's oeuvre as an architect, designer and urban planner. Ten authors, including the renowned architectural historians Eeva-Liisa Pelkonen and Akos Moravanszky, and MoMA curator Pedro Gadanho, address central aspects of Aalto's work. Particular attention is paid to Aalto's dialogue with important artists of his day, including Laszlo Moholy-Nagy, Jean Arp, Alexander Calder and Fernand Léger, as well as his interest in film, cinema and photography, whose influences on his work are examined here for the first time. The catalogue section presents numerous never-before-seen original drawings and architectural models from the archive of the Alvar Aalto Foundation. This perspective on Aalto is complemented with photographs by Armin Linke, who documented a number of Aalto's buildings anew especially for this publication. As these images demonstrate, Aalto's work is as current and inspiring today as it was at the time of its creation.

Book Information

Hardcover: 648 pages

Publisher: Vitra Design Museum; Reprint edition (November 30, 2014)

Language: English

ISBN-10: 3931936937

ISBN-13: 978-3931936938

Customer Reviews

A beautiful to hold, beautiful to look at, and beautiful to read monograph on Aalto. If you are looking for a slick large-format book full of detailed photos I might look elsewhere, but the archival material, artful new photos, and especially the fascinating essays make for a wonderful book.

A true genius in his field! It was a true pleasure to "meet" him through the pages of this in dept architectural biography. Thank you.

Great book

A good read
