# Elegant Display Alphabets (Lettering, Calligraphy, Typography)

## Synopsis

Here is a generous collection of handsome type fonts capable of adding just the right touches of formal elegance, precision, and grace to graphic projects that require a more reserved and thoughtful approach. Typographical expert Dan. X. Solo has amassed an impressive selection of 100 fonts, ranging from the airy elegance of Palace Script to the no-nonsense formality of State House and American Gothic Light. Also included are such diverse specialties as the stylishly modern Nadall, the Old English-flavored Goudy Text Inline, and an eighteenth-century alphabet Georgian Initials, which artfully incorporates three contrasting tones " gray, black, and white " within the outline of each lightly embellished letter. Most of the fonts include both uppercase and lowercase alphabets, numbers, punctuation marks, and typographical ornaments.
