## Customer Reviews

This book is well made but the content is sub par. This would be fine for a young kid who just wants to color in non english tag names but i was looking for something more complex. It was a waste of money.

This book has tons of different graffiti styles and designs to color. It's pretty good sized, and the pages are glossy and thick, good for marker and heavy color use. I would definitely recommend this to anyone who loves graffiti art.

Great book for a child learning to use graffiti colors. Nice thick paper and many sheets. Only downside, front and back have design, so permanent marker may bleed.

very happy with this hard to find coloring art book, will definitely be back to purchase more products.  
Thanks again

Ordered this for one of my 5th grade students who loves to draw -- albeit during class. He loves it!

I bought this for my boyfriend who is getting into Graffiti sketching again after a long hiatus. The pages are high quality paper (not a newsprint) so you can use Prismacolor pens on them or whatever without it bleeding through too much. This is pretty much what it says it is; a graffiti coloring book. It's fun and a unique item you won't find in the store. I am not disappointed.

all i can say is i got this today and its pretty good coloring material. i would call this a great diverse coloring graffiti book ready for your skillz and imagination to run wild with. great seller and quick delivery to top notch all the way

Great images. My students love this.
