Customer Reviews

Length: 3:22 Mins

Beautiful book! Alena Lazareva has done it again and produced a beautiful coloring book. All the images are beautiful and nicely done. My favorites are the animals and dragons. Looking forward to more books from this illustrator! Attaching a video review.

first I would like to say this book is amazing. I love it Alena Lazareva did it again. I have all her books so far and am so glad I got this one all I can say is wow. If you love grey scale this book is for you has a little bit of all fantasy mermaids fairies horses dragons. I'm in love . Would recommend this to anyone who loves to color. I am attaching a few pictures and will attach more once they are colored. I hope you enjoy this book as much as me. And I love her work can't wait for the next

book

Oh my gosh the detail in this book is amazing, the pictures turn out amazing when using colored pencils. This is just personal preference though as I love colored pencil more than gel pens. This being said I did color this book with gels, colored pencils, and even brush markers. The color took to the paper very well and made them stand out beautiful. This book includes 30 different images which include mermaids, fairies, dragons, and other adorable pictures. The pictures are only printed on one side so they are easily able to be cut out and framed. You will not be disappointed with this coloring book.

Alena Lazareva has done it once more, she has created beauty! I must admit I am a fan of her art, but this book has surprised me yet again! I love the mix of fairies, dragons, and the mythological tone of the overall book! The pictures are quite stunning, and very clear. The tone of the grayscale is spot on, not too dark and not too light. Even though the pages are not perforated, they are easily removable with an Xacto knife or other sharp instrument. The quality of the paper is perfect for my medium, which is pencil, but if you use anything with paint or ink I would suggest placing card stock underneath for any bleed through! This book is perfect for the advanced grayscale artist, and even most beginners! All in all I truly can't find anything negative about Fantasy Kingdom! It seems like Alena's books just keep on getting better and more surprising with each one she puts out! Well worth every penny and then some!

Beautiful and easy to color pictures

Love love love this book! Each new grayscale book released by Alana just gets better and better. I found the grayscale lines really easy to follow in this book. My pencils laid down color really nicely on this paper.

Fantasy Kingdom. Grayscale Adult coloring book I have not seen a page that is not gorgeous in this book. I am glad that I ordered it. I recommend that with every book colored pencil and pens (again, put paper underneath to prevent bleeding and indenting). I would not recommend water colors.

This is a beautiful book! I love the images. I normally copy my coloring pages on to card stock so I can preserve the book. I completed one and just started on another.
