I've just recently discovered Sherri Baldy and her sweet My Besties designs. She has a world-wide following for these cute little girls and has recently released her first three coloring books. [Fairy Time](#) is the third in the series and has sweet designs of fairies. These little girls have gorgeous big eyes and are lots of fun to color. I'm having a blast playing with my markers and coloring pencils with these cute designs. What I appreciate about them is that they are project that I can finish relatively quickly. I've been coloring a lot of detailed designs recently and it was fun and relaxing to simply color an adorable little sprite with my markers and then shade it with my various pencils. Here is what I found within this book: 25 x 2 (50) My Besties Fairy Designs Printed on one side of the

Page is white, slightly rough, and is non-perforated. Glue Bound. Designs do not merge into the binding. Room enough to cut pages out if you wish to do so. Alcohol and water-based markers bleed through the page. Gel pens and India ink pens leave color shadows on back of the page. Coloring pencils work well: soft lead lay down color, layer, and blend well; hard lead dent the back of the page but lay down good color.

The pictures are super cute. You get 25 pictures doubled for a total of 50. I like that feature so I can color each picture two different ways or share one with my girls. They are printed on thin, white, non-perforated paper. They are single sided. They are of a simple design with no background so you can finish quickly. Great practice for skin and hair! If you use alcohol based markers like Copics, Prismacolor art markers, Sharpies, or Bic Mark-Its they will bleed through so use printer paper behind your work. Water based markers work well unless you have a heavy hand in which case protect your work with printer paper behind it. Gel pens and pencils work great.

Cute drawings but I'm tired of adult coloring books printed on thin paper. Seems like everyone is jumping on the coloring book bandwagon without putting any effort into creating a quality coloring book.

I just got the first 5 of Sherri Baldy's books yesterday so I haven't gotten to color in any yet but after looking through each, I can honestly say I love them all. This one happens to be one of my favorites though. There are 2 of each image & they are single-sided. The paper is about the same as most books. The images are beautiful & adorable at the same time. Fun! I'll be buying the 2 I haven't gotten & any others she releases.

Cute designs, wish there was more to them, like a background for each girl. Decent quality paper (suitable for markers), single-sided and non-perforated pages. Two sets of each design are included, which makes non-perforated pages really annoying when you want to share half the book with someone else.

Super cute, like the rest of the series from Sherri Ann Baldy. These make my heart melt:) You get two of each images, so you can color it with two different mediums or with a family member/friend. Just awesome!

Sherry's drawings are amazing! The cute little quirky faces of all the girls, makes you fall in love with them! I love the fact that the book has 2 of every drawing, so you can change things around on the next one!!

So Cute, the paper is so thin and even though you get two pictures of the same thing you can not tear them out. Pictures are sweet and simple for those of us with attention problems and like to finish fast will buy more very soon and will buy some for gifts.
