Customer Reviews

This book is just not for me!!! Very plain, not anything that resembles Mandalas, a lot of pages and they are only 1 sided but the pics suck! Sorry but I like to be honest & blunt, and they are not Mandalas....I've added some pics out of books you can decide....

Pretty designs, but they only take up a tiny circle in the center of the page. There is like 80% white space

This book is not for everyone, Please keep in mind that this book has 50 illustrations divided into very simple mandalas with large details, medium detailed mandalas, and very detailed mandalas plus some of the mandalas are quite small with a 6 inch diameter, others are larger, I also found the patterns and art style vary, some are very simple with a hand drawn look, Some of the mandalas

are balanced, others abstract and unbalanced. The cover picture is probably my favorite image in the book and is only located on the title page which can be colored but not as a separate page to color. The cover picture is not representative of most of the images in this book, most are not complex, balanced, flowing mandalas like the cover.1. 50 mandala illustrations printed one per page (the back of each page is blank) on medium weight bright white paper.2. All markers and some gel pens bleed through the paper, I just place a sheet of paper under the page I am coloring to prevent damage to the next page. A blank page is added at the end of the book for you to use.3. All illustrations are centered on each page and leave Ã Â â • or more between the image and the binding, this is plenty of space to easily color each entire image, remove a single page from this book or cut the binding off for coloring groups.4. I am adding pictures showing the variety of images to help you decide if this book is just right for you plus the images I have colored using Sharpie Markers.5. For an inexpensive gift or if this is one of your first coloring books, Sharpie just came out with a small set of sharpie brush tip markers that allow you to color both small detailed areas and larger details with ease. This set along with this book would make a nice starter gift.

Like others reviewers have said, these are very simple mandalas, but on the plus side, I am a full time mom and don't have a lot of time to color and so this is perfect. I actually purchased a way more expensive one at a store that I will return because it is too detailed! The price is perfect as well! Happy coloring!

Should not be considered an adult coloring book when it is not detailed like an adult coloring book and only consists of one picture in middle of the page like a typical coloring book for a child. Very disappointed.

This is a nice adult coloring book full of mandala to get my creative juices flowing. For the price, I think it's a great deal. If you like to see pictures of some of the pages, leave me a comment, I'm happy to help if I can! If I had to give a "critique" I'd say that the designs are more simplistic than indicated on the cover and some of them are heavy handed in the black outlines which takes away from the finished design in my opinion.

Not all adult coloring books are created equal. I ordered a dozen, by different publishers, all at the same time. These published by Adult Coloring Book World seem to be of a higher quality. Sharper images and thicker paper.

Not quite as complex pictures, like I was expecting. But will still serve is purpose. Thanks.
