Customer Reviews

I like it. The songs are worthwhile for the most part. The only thing I can complain about is that it doesn't feel much harder than Book 4. That might just be me, though. Otherwise, it's a great set of violin pieces.

Our son is has worked through 4 volumes and is ready for volume 5. He has professional weekly lessons and his teacher asks him to order these. He likes them so definitely recommended. We also order from shar-music, they have a wide selection

We always order the Suzuki violin books with the CD, and this one was advertised as coming with the CD, so I ordered it. However, the CD was missing. I am not sure what to do about that, since I don't want to return the book; I just want the CD to be sent, and I feel it should have been included in the price since that is how it was advertised. It's irritating to have to take the time to try to figure out how to solve this, short of just ordering the CD separately and forgetting about the fact that it was advertised differently than it really was.

You know the routine for Suzuki--it's the standard, well-written, thorough student's book. Very pleased with the music contains.

Suzuki quality product builds violin skills. One book builds on the next level.

I buy all the Suzuki violin series through . Great books.

The book contained the piece my daughter needed for School

Quality of item was very good. Received in good time.
