# Dirty Rocker Boys

## Synopsis

An uncensored Hollywood tell-all filled with explicit tales of love, sex, and revenge from the video vixen made famous by Warrant's rock anthem "Cherry Pie." Who could forget the sexy "Cherry Pie" girl from hair metal band Warrant's infamous music video? Bobbie Brown became a bona fide vixen for her playful role as the object of lead singer Jani Lane's desires. But the wide-eyed Louisiana beauty queen's own dreams of making it big in Los Angeles were about to be derailed by her rock-and-roll lifestyle. After her tumultuous marriage to Jani imploded, and her engagement to fast-living Mötley Crüe drummer Tommy Lee ended in a drug haze followed by his marriage later to Pamela Anderson, Bobbie decided it was time Hollywood's hottest bachelors got a taste of their own medicine. Step one: get high. Step two: get even. In a captivating, completely uncensored confessional, Bobbie explicitly recounts a life among some of the most famous men in Hollywood: Leonardo DiCaprio, Kevin Costner, Mark McGrath, Dave Navarro, Sebastian Bach, Ashley Hamilton, Rob Pilatus of Milli Vanilli, Matthew and Gunnar Nelson, Orgy's Jay Gordon, and many more. No man was off limits as the fun-loving bombshell spiraled into excess, anger, and addiction. Bobbie survived the party barely, and her riveting, cautionary comeback tale is filled with the wildest stories of sex, drugs, and rock and roll ever told.

## Customer Reviews

I bought this on a whim, and I'm glad that I did. Once I started reading it, I was glued to it

until the end. I was very interested to hear Bobbie's side of the story regarding many things, especially her extensive time spent as a prolific groupie/model/actress in the midst of hair metal bands in Hollywood, especially dating very many men in that very unusual and superficial scene. It was a guilty pleasure for me to hear about all of her star encounters and the men that she dated. Not knowing her, and even despite all her trials and tribulations, I find myself attracted to her and all the fun of the lifestyle. Naturally, the good times can't last forever and the good old days for everyone indulging in excess must eventually come to an end. I was aware before reading that she had dated Tommy Lee and married Jani Lane. I'm very familiar with her being the "cherry pie" girl. I gather from this that there is hardly any loyalty at all between the men in this music genre. I also take from it and believe that Tommy Lee and Vince Neil are immensely insecure cheese balls. I take from it that Jani Lane was a good person who sadly struggled perilously with alcohol addiction. It's mind boggling how insecure these guys are. They seem so unsure of themselves that they make me feel better about myself. I mean, get real, dudes, but I digress. I have always felt there was something off with Pamela Anderson, and Bobbie has me believing her account, that Pamela was a self absorbed jerk. I thought that Bobbie's account of many things was amazingly bold and honest. She spoke of all her exploits including her drug use very openly which I respect very much. It takes courage to speak of things so honestly. This book wouldn't have been nearly as interesting if she hid the truth about many things. For many years, having long been a fan of Warrant, I wondered cluelessly about Jani Lane and I'd have to say that this is the most thorough account that I've ever gotten about the man's struggles. I have a feeling that he's probably the best artist that she ever dated. I'll always miss the guy and I'm glad she spoke about him so openly. I liked hearing her talk about their child together and even her openness about not being the best mother that she could have. Again, very honest. I was almost brought to tears seeing a picture of Jani Lane with his small daughter, especially being a father to my own small daughter. I wish that guy had beaten his demons. Whatever secrets he might have revealed to Bobbie wouldn't matter to me. Stuff happens and I couldn't think less of him no matter what it was specifically nor depending on who the perpetrator was. The man was an exceptional songwriter, and an especially exceptional balladeer. Bobbie confirmed something for me that I have long since suspected, which was that lots of the hair metal band guys are as shallow and as vapid as can be, with the exception of very few. I went into this already suspecting that Tommy Lee is a big shallow child which she seemingly confirmed, so nothing in her stories about him surprised me, but I got a kick out of hearing all of it. That insecure dude took her for a long selfish ride. I was

particularly interested in this reading being a fan of the hair metal scene in general, especially Motley Crue and Warrant. It was also cool to hear about the ã ãeniceã ã Nelson brother that she dated, yet another cry baby hair metal band guy taking his blessings for granted. These stories epitomize the shallow place that hollywood and the entertainment industry no doubt are. This book was well written and easy to follow. I really enjoyed it and anyone who was a serious fan of the metal scene of the late 80s and 90s will possibly enjoy it. Iã ãm glad sheã ãs sober now. I know from experience that sobriety is not easy to come by after giving into way too much chemical fun and experimentation. I wish she had gotten straight early on and she might have done much better in sustaining her career. She blew off numerous opportunities which she readily admits to(which takes guts and character to say). Nonetheless, Bobbieã ãs stories delivered the goods for me. Now I have nothing to read and Iã ãm bored. This was worth the money and the time to read. Five stars from me!

I miss the 80's, I miss the Big Hair Bands, and when MTV was all about videos and yes I will always remember Bobbie Brown for "Cherry Pie" and "Once Bitten, Twice Shy". Oh to have that level of fame and recognition from just a couple of short videos. We all wanted to be a part of that scene so the second I see she has a book out I am all over it, and ghost writer or not, I am not disappointed. Ms. Brown really gives us the goods. I saw that some of the reviewers had to go all self-righteous and hyper-critical because, she covers everything from her drug use, her poor mothering skills, her questionable relationships and god forbid! She actually acknowledges that she is a beautiful woman and was raised to place her value and self-esteem on her looks and her relationships with men. (Nice to see that jealousy still lingers after all these years.) Well, this is a surprisingly common practice not only in the south but elsewhere in the world. Oh and by the way, this is a Rock n Roll model (those hair band guys didn't get famous so they could bang homely/average girls after all.), if you want to read about a saint go pick up a biography on Mother Teresa. But if you want the low down on the music scene in LA in the late 80's early 90's then Bobbie's your gal. I burned through this book in a day because I could not put it down. It is literally a gossip dream! Since I'll admit I get off on this stuff I'm going to go ahead and say: I Loved reading about Matthew and Gunner Nelson's bizzarro twin connection - holy shades of "Dead Ringers". I loved that she spilled on sleazy dorks like Vince Neil, Kevin Costner, Pamela Anderson and Rod Stewart. I laughed my butt off over Leonardo Dicaprio having equipment that was beyond his capabilities. I loved that she didn't hold back on her relationships with Jani Lane and Tommy Lee - felt more than a little concerned that Lee left her hung up with a lot of issues and years of no resolution in sight, but I enjoyed her ability to

share it. I also appreciated that when she was in a speed enhanced haze that allowed her to fall in and accept the extremely loose norms of body-swapping in LA she could tell all knowing full well that readers will be appalled and get very judgy. So what? Bobbie gives us what we came for. Disapprove and hate her all you want for it, but she gave you exactly what you came for - gossip, dirty gossip. And since she didn't sugar coat a darn thing or even attempt to make herself look better in the process, I have to admire her for her honesty. Quite frankly, I wound up liking Bobbie Brown more than I could have imagined.
