# Really Professional Internet Person

## Synopsis

Through her pranks, sketches, and videos about everyday life, Jenn has become a mouthpiece for millennials and one of YouTube's fastest rising stars! Jenn McAllister, better known as JennxPenn, has been obsessed with making videos since she found her parents' video camera at the age of eight. A shy child, Jenn turned to film because, unlike with life, you can always have a do-over. Really Professional Internet Person offers both an insider's guide to building a successful YouTube channel and an intimate portrait of the surreality of insta-fame and the harsh reality of high school. Brimming with honesty, heart, and Jenn's patented sense of humor, Really Professional Internet Person features top 10 lists, photos, screenshots, social media posts, and never-before-posted stories chronicling Jenn's journey from an anxious middle schooler just trying to fit in to a YouTube sensation unafraid to stand out.

## Customer Reviews

I was actually shocked. Growing up in Jenn's town and even seeing her around high school I never really understood what jennxpenn was all about. I told myself I would never buy this book but I did and I have to say, that was actually really good. Jenn if your reading this I just want to say awesome book and maybe I'll see you around soon.

This is a very interesting and funny autobiography of a young woman who became a YouTube sensation with, as of August 2014, over two million subscribers and more than 45 million views of her videos. The author explains how she got started at the age of 12 and continues up through age 19. The book contains a lot of "top 10" lists; some of them were boring for me, but others were

hilarious and/or insightful. Thanks to the advice of one of her teachers she realizes that what she is doing for fun can become her job or career. There is a lot of useful information for anyone considering publishing on YouTube or similar websites.

I sent this to my cousin for her birthday and she loves it! Her favorite gift!

It's a great read, it made me laugh during my worst days in high school. This may have just convinced me to start youtube. I was kind of hoping for a signature because I live very far from the US (Hong Kong).

This book is a great purchase if your looking for something fun to read in your spare time! I got the paperback copy and it came heavy duty and undamaged. I wasn't disappointed and I highly recommend it!

Awesome read. Love learning about Jenn's life.

I Love Jenn and I love her book! I finished this book in like three days and I couldn't stop reading it! She made this book very interesting and funny. I hope she writes more in the future. (:

Love JennXPenn so naturally I bought her book months ago. It arrived on time and though I have yet to read it cover to cover (reading? bleh) Jenn uses small easy to understand words and funny anecdotes so I am enjoying it so far. It seems every YouTuber is coming out with a book which means I've got alot of reading to do.
