## Customer Reviews

Why oh why will companies and publishers not use the "free look inside" for customers ( offers this). It's so hard to look at a piano book and determine what songs are in it, and if so, what the arrangements look like if we think we can play. Anyway, I ordered this book, not unhappy, but not completely happy. Some songs seem very difficult, some seem very easy. I buy from most of the time, quick, easy, and I love gthe one-click purchase. I'll keep this book, but when I go to song books or music sheets looking for a book, etc., I want to see an example of the songs, or the Table of Contents. I'm going to list what I can in this review for you all.I don't think this is a beginner book, but I'm not sure it would be considered advanced either. Somewhere in the middle. I learned to play when I was young, and just starting over, so I want something not for kids, but I don't want something that an experienced professional pianist plays. I also did not grow up learning to play chords, it was left hand and right hand. Now I'm trying to learn chords. Seems too many to

remember to me.
