Customer Reviews

I am sad to say that this book is pretty disappointing :-/ I purchased it because it was on sale, because it was a midnight edition, and also in part because I was told that the pages were perforated which would allow you to take the pages out of the book to color them (that was untrue, so I had to cut them out with a ruler & exacto knife, which was quite a hassle... but one I would have gladly dealt with, and said nothing, had it not been for everything else). Maybe if some of the pages from the book had been included in the description I would have been better informed of what I was getting & possibly not so disappointed at the lack of creativity and miniscule amount of design on some of the images once I finally got to see them. Also, many of the pages have swearwordscoloring.com printed on them (and in at least one instance I've found so far, it was even printed OVER the design!)... that fact was Not included in the book's description either. As someone who enjoys the swearsy coloring pages, I was excited for a new edition... yet I cannot display the pages if I chose to do so because of the website name printed in/on them. If I had downloaded

these pages from the website, I would expect the web address to be printed on them for copyright purposed... but since I purchased the right to use them, that was unexpected and very disappointing! There isn't even any artist information included anywhere in, on, or around the book... why is there no credit given to those who contributed?
