Customer Reviews

Book was as advertised and in good shape. I had Volume 1 of this title and wanted to get the companion title. The books are excellent lighthouse references with very nice photos and the narrative is very well-written and informative.

Legendary Lighthouses V. II continues the celebration of American lighthouses begun in the first volume, paralleling information presented in the second new PBS series and providing fine color photos of the lighthouses as well as a healthy dose of local and lighthouse history. Any with a fascination for the lighthouse will find this an invaluable guide.
