This is a nice blank sketchbook to accompany the other book Laws Guide to Nature Drawing and Journalin. There are 80 blank pages, some of which are toned. Right at the end are additional pages of short tips for nature journaling. Paper quality is good. Much like cartridge paper, a bit smooth. It can handle light washes. The toned pages are good for pencil shading. And you can open the pages flat which is great for drawing across double pages and scanning. Overall, the sketchbook looks good. I like the rounded edges, elastic band in front. The cover is white so if you want to draw something on it you can too. Pricing is quite reasonable when compared to other sketchbooks.

Top notch complement to Laws' Nature Drawing and Journaling book. 13 color pages of curiosity prompts, drawing tips and other key references are in the back of the sketchbook. Nice quality sketch paper and 16 mid-tone pages to use too. Having these handy will help me learn to "think like a naturalist". The curiosity mantra " I notice... I wonder... It reminds me of..." is supplemented with

"...Could it be?" The size is much more manageable than my full-sized sketchbook. Includes an elastic closer.

Nicely made sketchbook. Good size and good quality paper. There is even a reference section in the back. I love all of his work.

Love all his stuff! Lots of artists use mixed paper sketchbooks, and in stock...

The paper is sturdy enough to take a couple of watercolor washes. I was pleasantly surprised to find the drawing guideline pages in the back. I'm using it every week.
