## Customer Reviews

I was very disappointed by this coloring book. It appears to be a collection of different skull drawings, by many different artists. Not all are "sugar skulls" and several are very hard to color. The flowers seem to be an afterthought. I do not recommend this book.

If you don't mind doing an entire book of really nice sugar skulls, this one is for you. Each skull is different. One skull that is "shaded" is gorgeous. Other skulls contain pictures of flowers, insects, butterflies, scrolls & so on. Only one non-skull picture that I'm not fond of, but overall a really great color book.

If your just wanting something to color this book is a good choice. It has some nice pictures but some of them just look like Clipart. The pages are one sided but not perforated. The paper weight feels like just regular paper, nothing fancy.

I bought this as a gift for my daughter, but I may have to order a second one because I really like this coloring book the skulls and flowers are great. The paper seems like quality paper and my gel pens do not bleed through. Great for stress relief or just when you are feeling a bit artistic. **DISCLAIMER** : I did receive this product for a discount in exchange for an honest product review. My opinions are my own and I have not been influenced in any way. I myself use others product reviews to determine whether I purchase a product or not and I do rely on them for honesty, so I always post honest reviews to help others as well.

I absolutely love this coloring book! The theme is really cool and is one that both guys and girls would be up for coloring. Ive had plenty of my husbands friends comment on how cool it is that they have come with something that would be something they would be able to color in too without feeling "girly" as silly as that sounds. The pictures are cool and they are positioned in a way that you arent going to ruin the pic behind it because they are one per page - if you have markers that really bleed - I just either tear the page out or put a thin piece of cardboard between the pages. Very cool pics and themes! I love it!

I love day of the dead and sugar skulls. The sheets in here are more like tattoos from the early 90s. Very disappointed

Pretty good coloring book if you like skulls. Not super detailed like some of my wife's coloring books but pretty decent nonetheless

If you like Sugar Skulls this is the book to buy the pictures are amazing! I've bought others and they smear! This book does not!
