# Break Into Modeling For Under \$20

## Synopsis

There's a popular misconception that breaking into the modeling business requires expensive head shots and other costly investments. Judy Goss, a former Ford model and professional with twenty years in the business, has set out to dispel that myth once and for all, and tell you how you can actually launch your career for \$20 or less. Judy breaks the process down into four simple steps: Preparation, Pictures, Promotion, and Presentation. She gives countless suggestions and tells all sorts of industry secrets, such as how to:

- \* Determine what type of model you are
- \* Take your own pictures at home in the right poses and clothes
- \* Prepare what to say and do at casting calls
- \* Avoid costly scams
- \* And much more.

Judy's expert advice will guide aspiring models of any age through the process of finding representation with a reputable agency or manager, and it provides a valuable resource to fall back on even after models start working. This comprehensive, step-by-step guide is the only book you'll need to launch the career of your dreams.

## Customer Reviews

What a Godsend this book has been for me! I always had the desire and "stats" but never the information and/or direction I've needed to break into the modeling business. Thanks to Judy Goss and her book, I have finally been able to achieve my dream. I now have an agent and have begun working thanks to carefully following the advice in this book, (which is comprehensive and easy for the layperson to understand!) It's a MUST READ If you want to be a model in any capacity! A bestseller, to be sure!

Laura S, -Model

Excellent book! Judy Goss tells it like it really is. She is straightforward, honest and gives accurate, step-by-step instructions on breaking into (and staying in) the world of modeling. Drawing from 20 years experience, she reveals industry secrets that help the reader learn how to avoid costly scams, what the top agencies look for, how to assess the type of model you are, best ways to find local and foreign representation and much, much more. I highly recommend this book for aspiring and working models of any age and for parents of kids interested in modeling. There is so much to learn and this book teaches it all! Karen Murphy, Model, CESD Talent Agency, NYC

I found the Kindle version of this book useful, assuming what she says is true (I haven't put her recommendations to the test). I am somewhat disappointed that she doesn't address specialty modeling at all (hand models, foot models) which is what I'm looking into pursuing. But I will extrapolate some of the info here & see what happens.

This book was so helpful and covers every aspect of breaking into the modeling business one could imagine. It is also very encouraging and positive. Especially good for guidance in what kind of photos to submit to agencies and how the whole system works. After reading this book, I feel I am on my way to fulfilling a dream I have had for a long time. Thank you, Judy Goss!!

This book is a MUST READ! Not only is the information great for multiple users: aspiring models, parents, agents, managers....but Judy's expertise, honesty, and genuine tone of voice - as well as her honesty - make it informative and pleasant from start to finish. As a fashion publicist I would recommend this to people who are hoping to head down that difficult road - with Judy's help you have a guide through what otherwise could be an expensive and arduous journey!

I am a father with two beautiful Daughters, Wanting the best for them is a fathers dream. One of my daughters wants to be a model and dreams for becoming one for which I encourage. The cost of modeling I heard and been told is very to expensive to just give it a shot. When I heard about Ms. Goss's book, I read it cover to cover and love what I read. Her words were of Truth and passion, no lies no promises no fantasies. I hope I can take her knowledge and turn it into a career fro my Daughter. Anyone who wants to help the child find the dream should read the book they will be glad they did.

This book is a must read for all aspiring models and models, both male and female! This book contains all the information you need to know to be able to break into modeling and even more. It also contains information that can help further your career as a model if you have already broken into the modeling industry. You will definitely learn that it IS possible to break in under \$20 and of course how to do it! The author, Judy Goss, is a former fashion model for Ford Models. She also became an agent, manager, casting director, producer, and booking editor. Making her a perfect person to listen to for advice for she has been on both ends of the modeling world. I have read countless online articles and books about modeling, I can put them all together and I'd still say that this book is more complete. I cannot imagine needing to read anything more. If there is only ONE book that you will buy to help you in your modeling career, let it be THIS ONE. This is the only book you will ever need. I was able to get in touch with the author, who is very kind and friendly. She offered to answer any questions if I had any. I paused for a moment, a LONG moment, to think of a question and I couldn't come up with a single one because all the questions I ever had have been answered by this book. Buy this book as a gift for yourself and you will love yourself tenfold! Or if you have a friend who is in or wants to get in the modeling industry, buy this as a gift for him/her and he/she will love you tenfold! P.S. Immediately after reading this book, I followed the advice in the book and got a positive response from an agency in my country. I wish everyone out there good luck!

An excellent book for anyone thinking of a career in modeling. The author takes you in front of and behind the scenes, and shares her 20 years of experience on both sides: being a model and an agent. It a realistic and practical guide with attention placed on protecting budding models from the pitfalls of this highly competitive industry. She tells is like it is.
