I have been looking forward to ordering this book since I initially saw a posting on Facebook. I love the retro, tattoo inspired work. I have been looking for a book like this for awhile. Each time I have found a tattoo-esque book, it has always ended up being full of pages that do not scream color me or look like they were drawn by a bada** toddler. I appreciate the fact that the pages were "hand drawn with a pen and sh***". A lot of artists depend so heavily on computer rendered drawings that it loses the appeal to color. If you're overly sensitive, this is definitely not the book for you. But, if you appreciate vulgar insults with an artistic spin, please do indulge! You will not be disappointed!

I'm not entirely sure I would have purchased this if I had known that the printing was done in a

graphite type color. It is not true black but it appears as though it was drawn just for me. You may like that but I don't. I think it makes it look faded and unfinished. I agree that the images have a blurry appearance to them but I find that the quality of the paper is just fine even for markers if you put something under it. I've included a few pictures to help you decide if this is what you want. I personally would not have purchased this if I had seen all of the photographs. In my opinion most of the art is fine but the printing is where it's lacking. My last photo shows an example of the printing not being true black and blurry

I took a chance buying this book because I was not really sure of what it would contain. I was very pleasantly surprised! This is a really need to vent your frustrations in a major way therapy! I love it! I recommend this book to anyone who is not offended by crassness (because you will be offended if you are..), sassy speakers, and attitude having people who need a good laugh. I am very happy with this purchase!

Another great coloring Book added to my collection. Me, my daughter and my 10 year old Grand daughter Love coloring together on the weekends. Great Family time spent since my Daughter is Grown and Married now and has kids of her own. We all Love the great Artwork and Pictures that all of the Artists have shared with the world. Great work everyone ! Keep up the great work !

I love Squidoodles coloring books. So far I have bought 3 of his and I intend to buy every single one. All the images in this coloring book are amazing and so much fun to color. All the pages are single sided and the paper is great quality too.

Love this awesome book! Phrases to colour a bad day away and Steve's unique artwork just makes it perfect. One of my favourite books

Not for children, this coloring book is for those who like a slight twist to their humor. The language is not PG but it's fun to take the edge off with a few creative and colorful insults.

this book is amazing steve there are times that you just have to color what you would like to say and this is a great book for that. the art is wonderful in it.
