## Customer Reviews

• Color New York City • is an interesting mix of iconic New York City images along with collages of items that can bring the city (or even any large urban city) to mind. Along with Central Park, the

Statue of Liberty, and requisite Big Apple, there are taxi cabs, tourist attire, and street food. While to my taste, the coloring book has done a good job of capturing what I classify as New York City, this can be subjective. Those who live or who have lived in the City may see it in an entirely different vein. I think coloring books of this particular city have a tougher time than those, perhaps, of London or Paris. I will provide a more in-depth review of what I found in the coloring book below, but here is a quick overview: 30 Designs most of which feature New York City views. Designs printed on one side of page. Paper is thin, white, and non-perforated. Line quality of print is varied. Markers, gel pens, and India ink pens all bleed through the paper. Coloring pencils work well but hard leads leave dents on back of page. I really enjoy coloring hand-drawn designs. I understand that because they are done by hand, the quality of the line art can vary. In this case, there were a few incomplete lines — whether due to printing or to the artist not finishing the image, I don't know. This happens from time to time in the best of books. I rectify it when I can by using a good black ink pen to complete the image. I have several in different point sizes so I can choose the one that best matches the design I am correcting. Not an issue that would make me return a book but one that I noticed on more than one or two designs. That being said, I really enjoyed my first project in this book. The torch of Lady Liberty was interesting to color.
