This book is really exceptional an effective than other books on this topic. I am an amateur musician

and I purchased this book for knowing about the basic of song writing. The author describes all the necessary tips in details. After reading this book I have just completed my incomplete song and itâ™s true. It is really unbelievable. Grab you copy and get the benefits from it. Thanks Wright.

This book is more than amazing. What I like about the book is it teaches you how to create a good song that will instill so many minds or hearts. What I like about this book is teaches how to write or compose a song straight from our hearts. It's not just composing a song but putting your heart on a song.

This is my first book about song and music and I really love it. The topics are great and how it was delivered is very easy to be understood. I was enjoying the book when I found out that there were no pages to flip on, I hope you can add more.

I heard being a song writer is a challenge compared to writing a short story, I find song writing a little bit more difficult. However, after reading this book, I'm up to the challenge to compose a song. I might need some inspiration to get these things done! Hope I can make my own inspirational song someday
