As an interior designer, I love have a coloring book focused on home decor. The images are beautiful and the paper weight is perfect if you want to use markers instead of colored pencils to color an image. And, there are serval pages with inspirational/motivational quotes on them, perfect for framing and incorporating into your decor. I've already colored several pages and I am using the pages with pillow and chair drawings to play around with color combinations I'm considering for a design project. What a great way to envision decor and make my design ideas come to life.

I love, love, love this coloring book! Thick matte pages filled with a variety of home scenes including various rooms, kitchen utensils, a collection of chairs, inspirational quotes, and a few all-over print pages. The design style is a mix of today's farmhouse/industrial/cottage with a modern feel! I get to

play with different color schemes and various patterns which is perfect when you dream about home decor and design all day! I have been using colored pencils but I think the pages are thick enough that you could use markers and they wouldn't bleed through. I think this would make a fun gift, wrapped up with a fresh set of pencils, or a CD to listen to while coloring. I am planning a "moms night out" at my house with yummy apps and drinks. We can color pages from this beautiful book and chat the night away!

I've been following The Inspired Room blog for many years and wasn't the least bit surprised it was voted Top Home Decor blog by Better Homes & Gardens the last two years. Melissa Michaels has written NY Times bestsellers on the subject and now she's back at it with a unique move into adult coloring books! The quality of the book is beautiful and I've purchased two to give as gifts. I hadn't ventured into adult coloring prior to now. It provides relaxation, time to turn off your mind clutter and have some fun. I've enjoyed trying out unique color schemes too. Highly recommended!

LOVE the idea of a grown-up coloring book - finally - just for us! Melissa Michaels' The Inspired Room will not disappoint. It's beautiful enough to grace your coffee table and is irresistible not to open! Use colored pencils, brush pens, markers, watercolors - no bleeding through the thick pages and are only one-sided. How thoughtful... GET this coloring book if you want to find a new passion! Great for putting your design and color schemes on paper, too! Buying these for gifts!

If I could draw what I want to color, it would be this coloring book. I LOVE it. My family mocks my coloring book collection because I don't always finish them, but I might buy another to color when I'm done with this one. A great mix of small objects to finish quickly and more elaborate rooms. My mom will love it, too. Oh! And my niece. And my sisters...

As a new interior decorator and coloring book enthusiast, this new color booking helps me brainstorm color themes and relax all at the same time!! It gets no better than this!!! Melissa this book is amazing!!! Thank you!!!

Coloring books have become my new pastime but "The Inspired Room" isn't your typical coloring book. It's also a place to practice your decorating skills. The book allows me to color my favorite mantras and quotes. And it lets me try out that funky color combination that I haven't been able to talk my husband into just yet. The paper quality is excellent and the pages remove easily.

I love this coloring book. It's designed just like a home that I would love and items that I can color and decorate however I want. The paper is a great weight so that I could use regular markers, but not permanent. As soon as I got it my imagination took off and I colored away. I don't know what I'll do when I'm finished!!
