Easy readings. More details if you want them, but just downright straightforward stuff to get started with the new Uke. Easy to understand and follow directions.

A lot of well organized and well developed information. This book will keep the self-motivated ukulele learner profitably busy for a long time.

Great all around book for the beginner who wants to learn everything about the Ukulele to become a great player. This book is very well written.

A great book easy to read and understand. With the information contained within I now have a better understanding as to what Ukulele to purchase.

Lots of other books are just as "dumbed down" but offer a lot more in regards to how to play. Hal Leonard has a pretty decent series if you actually want to learn to play.

great price...great condition!

Just what I needed

Great for beginners, I'm already playing a few songs!
