If what you are looking for is a coloring book filled with intricate detail, this probably isn't the book for you. If, however, what you want is charm, whimsy, and a style all its own, I really think you can't go

wrong with Kawaii Coloring Book. The art is pretty simple (as I have tried to demonstrate in the photos I included), but there are all sorts of subjects to color. There's food, bunnies, hearts, even robots and monsters. Even the spiders in this book are cute! This book is one image per page. It never fails to make me smile while I color. I think I'll be buying a second copy!

For all of the adult coloring books that exist right now, it's been particularly hard to locate one with cute doodles or 'kawaii'. That's why I'm so glad that I found this book. I really like how it has a variety of different coloring pages, from cupcakes to robots to flowers to skulls. The pages are one sided on quality paper; I have been using gel pens and have experienced very slight bleed through due to the gel pens having a heavy flow. The designs are just the right amount of complicated....the pages are filled with the drawings but are not overwhelming. Overall, a fantastic purchase and I'm likely to buy another copy. A definite recommendation!

This coloring book is better than I thought it would be. The pictures are absolutely adorable and they vary from being very blank to super detailed. The mostly blank pictures are fun because they allow you do create your own patterns within the drawings. The very detailed drawings require colored pencils or ink pens because of the fine lines, but they're just as fun. The book consists of only single-paged drawings so you don't have to worry about the colors bleeding through the back of the page onto another drawing. I love this coloring book!

Truly a relaxing coloring experience. Every page will bring a smile to your face. Many coloring books and pages take effort when making color choices. This book is so fun and easy going, no matter what color you choose every page turns out nicely.

This coloring book is absolutely adorable ! The ONLY problem that I personally have is that most of the coloring pages just have TOO much going on in them. It's like a kawaii mandala that you're trying to color in lol. I know it's different for everyone but just for me it was a little too much in most of the pages

This is a really cute kawaii coloring book. Quick and easy to color in a sitting. None of the intricate detailed patterns other coloring books have.

Such a cute coloring book! Good quality paper & pages are one sided so you dont ruin anything

with marker that may seep through the pages.

This is really cute, however half of the book has a ink streaks through the middle of the pages like the ink ran out, which is a bummer.
