Customer Reviews

The zombie pics are cute. Most pages are just zombies, with no detailed backgrounds. But that also makes for stress free coloring. Some are comical. They are printed on one side on decent paper. I'm attaching a pic of my favorite image from the book. If you love coloring and love zombies, you'll love this book. If the lack of a detailed background is a deal breaker, just draw in your own background. That could be fun, too.

THIS is what I was looking for when I was trying to find a zombie coloring book. Too bad I found the other one I bought (and was really disappointed with) before I saw this one. But thanks to the images in previous reviews, I knew this one was the real deal. Full-size images that look like they'll be really fun to color!

Love it so much I don't want to share with my boyfriend, so I'm buying a second copy! However, I saw a similar book on here by Speedy Publishing, with the same artwork on their cover, that I found inside THIS, Nick Snels book. Not sure what that's all about....

This has been my go-to for lazy Sunday activities. The illustrations are very well drawn and lend themselves perfectly to exploring your favorite color palettes. Each page offers up a different view into the world of zombies doing their best at being un-dead. My toddler even gets a kick out of them. His Crayolas have graced many a page. The only concern I have is whether a pale-green or muted-blue make for the best skin color.

Even coloring books have given into the zombie craze the last couple of years- god help us all. This book is ghoulish fun. They want brains- and crayons.

This coloring book is awesome. I love the illustrations so much I don't even want to ruin them with my awful coloring. LOL

I love this book. I love the pictures and that it doesn't have pics in front and back of the page so I can use my markers.

Excellent for all ages. A lot to color. I wanted the walking dead coloring book but it's mostly black.
